

WARNING: These Premises are under 24HR Video and Audio Surveillance.

At last, commercial grade top of the line CCTV surveillance technology at an affordable price!

Watchdogs Surveillance, Inc.

Lic. # 890079

Specializing in Assessment and Installation of Surveillance Systems
for Retail, Commercial and Residential Properties

Watch and control your premises locally on a CCTV Surveillance DVR
and remotely via Internet Explorer and your PDA cell phone.

KEY Available Features:

VIEW all activity locally and remotely for loss prevention and to help implement safe working practices

DISPLAY designated camera images to customers as deterrent on in-store monitors

NOTIFY/ALERT when customers enter the store or unauthorized areas

COUNT the number of customers entering the store

CONTROL devices, such as lights, locally and remotely through integrated automation

RECORD all activity locally and backup remotely

PLAYBACK all motion events (or scheduled recordings) locally and remotely

TRACK packages or material from delivery through processing and sale

POSITION PTZ (Pan Tilt Zoom) cameras locally and remotely

FACE DETECTION to capture faces of people entering and exiting the store

POS (Point Of Sale) integration can help reduce errors at the register and prevent "sweet heart deals"

LPR (License Plate Recognition) to track customers' frequency of visits

PDA Cell Phone capabilities include seeing live streaming images, playing back events, and controlling devices.

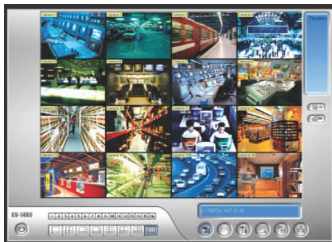

Capable of remotely viewing, controlling, and adjusting the CCTV surveillance system using Internet Explorer.

No special programs needed.

All this available at no additional monthly cost if broadband internet access is already present.

Dynamic IP support, no need to purchase expensive static IP address.
